

The Global Switchboard fosters effective global engagement and inclusive dialogue through our network, our co-working space, and our **digital hub.**

The Global
**SWITCH
BOARD**

The Global Switchboard is leading an effort to centralize Pittsburgh's global engagement landscape through the creation of a digital hub. To gear up for the hub's end-of-the-year launch, we are proud to present the **Hub + Spoke event on October 13, 2017** at the Ace Hotel, an invitation to step inside a simulation of Pittsburgh's new virtual global engagement neighborhood.

What is The Global Switchboard?

The Global Switchboard aims to foster effective global engagement in the Pittsburgh region. Through our co-working space and across our membership network we bring people together, encourage inclusive dialogue, and facilitate collaboration that amplifies the impact of globally focused people and organizations. In 2017, we're introducing the digital hub in the hopes of better supporting our growing network.

What is the digital hub?

The digital hub will be the online home for Pittsburgh's global engagement community. This publicly-accessible website will facilitate communication and collaboration among global engagement professionals, will help individuals find relevant services, and will showcase the community's work.

Why are we having an event?

The Hub + Spoke event is designed to bring the digital hub to life, highlighting the people, projects, and organizations that form our global engagement network. Through Hub + Spoke we aim not only to raise the funds necessary to ensure the project's successful launch, but to incentivize the community to help us populate the hub comprehensively.

About the Hub + Spoke event

Interactive

With the help of event partners The Global Switchboard will transform the Ace Hotel gymnasium into a physical representation of the digital hub, with six zones surrounding an open center, like spokes on a wheel. Signage at the entrance of each zone will describe key themes of global engagement, including Global Education and Immigrant and Refugee Integration. Through a competitive process, The Global Switchboard will select partners from across the region to design relevant interactive experiences within each zone. Event attendees will move from zone to zone, eating, learning, and exchanging ideas.

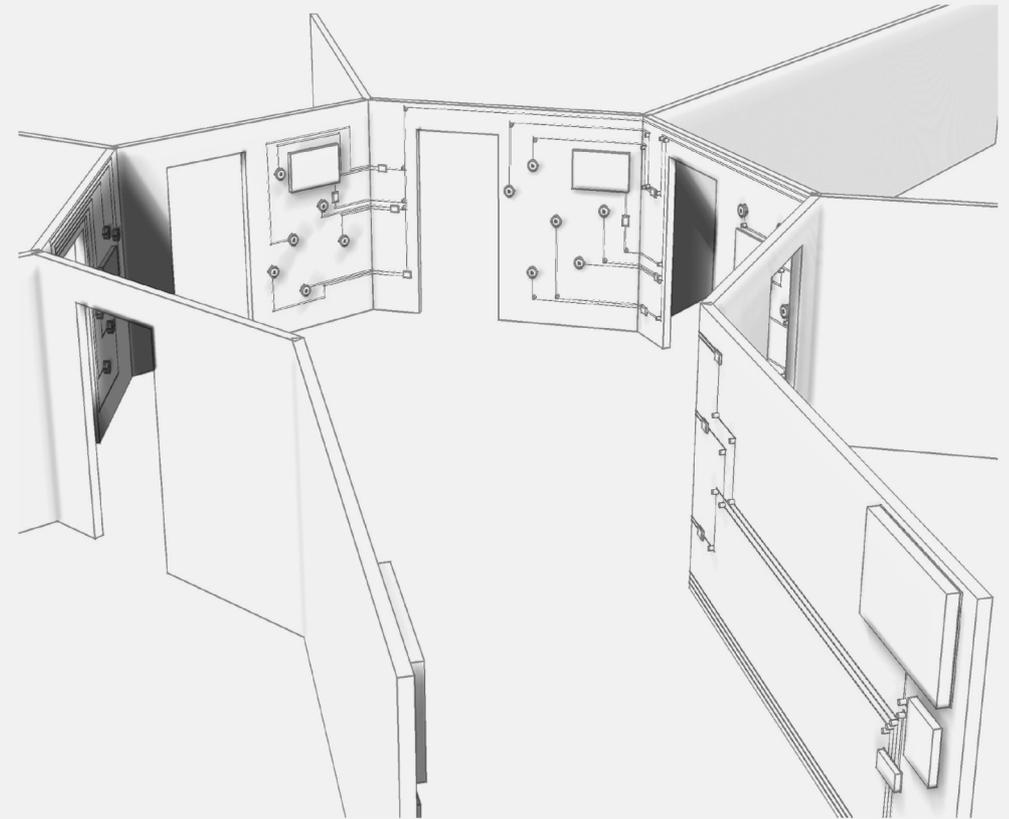

Formal presentation

Following the interactive portion of the event there will be a formal presentation of the work of The Global Switchboard and a keynote address.

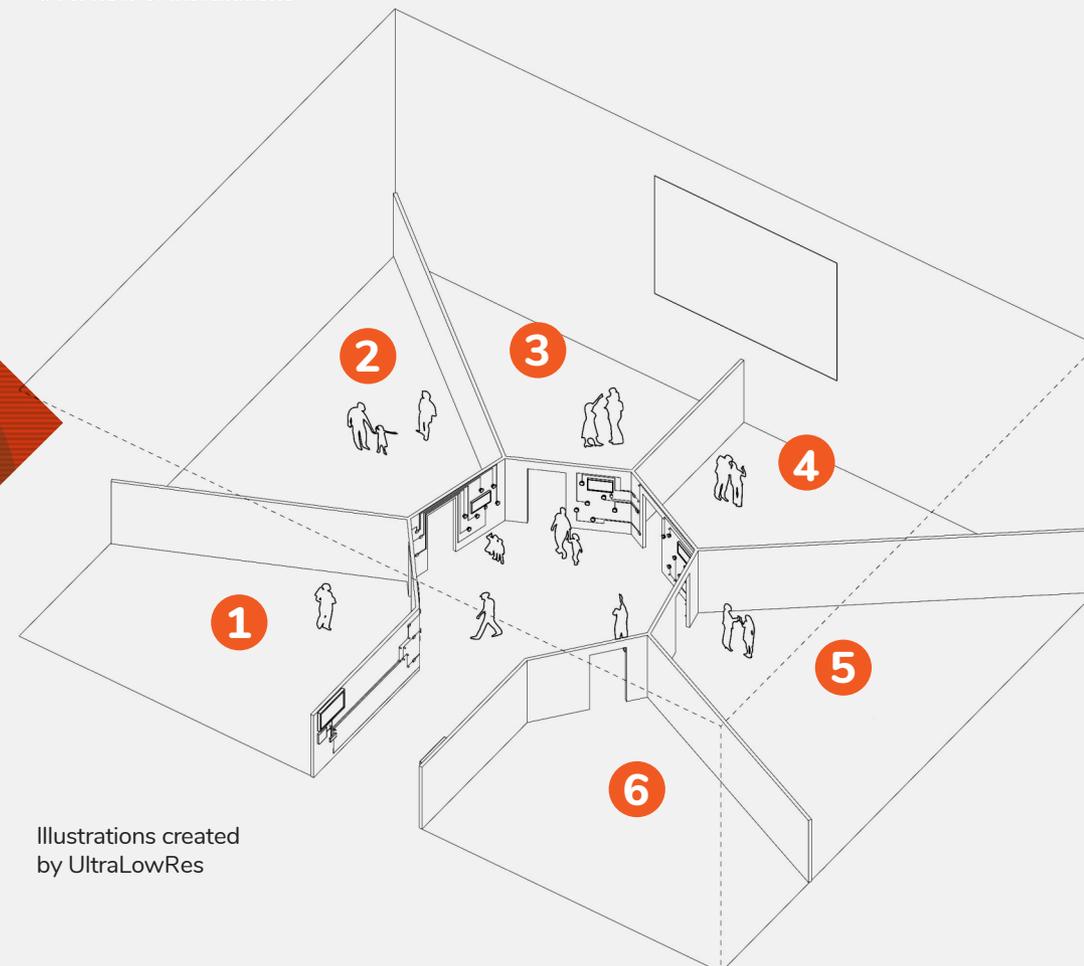

After Party

Event attendees will be invited to move from the gymnasium to the 2nd floor ballroom for an after party, called **[Together] We Move**. Guests will enjoy music, drinks, and a celebratory spirit. **[Together] We Move** is a continuation of a series of cultural celebrations made possible in partnership with Change Agency, Kelly Strayhorn Theater, Shift Collaborative, and Welcoming Pittsburgh.

Overview of Installations

Zone Activity

- | | |
|---------------------------------------|-----------------------------------|
| 1 Immigrant and Refugee Integration | 4 Innovation and Entrepreneurship |
| 2 Global Education | 5 Intercultural Exchange |
| 3 Critical Issues in a Global Context | 6 Sustainable Development |

Call for Event Partners

This is not your typical fundraising event.
And, definitely not an information fair.

The Hub + Spoke event is meant to bring global engagement to life. We want you to pitch your most creative idea for an interactive experience that demonstrates your work.

Apply now to become a Hub + Spoke event partner and showcase your commitment to global engagement in Pittsburgh.

Receive space within an appropriate zone to feature your idea.

Collaborate with other partners inside your zone.

APPLY ONLINE:

www.theglobalswitchboard.org/digital-hub/hub-spoke/

**Submit your proposals
by June 30th 2017**

*The Switchboard will accept multiple partners for a given zone and will ask that those partners consider how their interactive ideas could be coordinated together.
